

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

River and Mercantile Global Sustainable Opportunities Fund (the “Fund”) A sub-fund of River and Mercantile Investments ICAV (the “ICAV”)

Class S1 (Accumulation) EUR, ISIN: IE000WNILNL5

The Fund is managed by Carne Global Fund Managers (Ireland) Limited (the “Manager”)

Objectives and Investment Policy

Investment Objective

The investment objective of the Fund is to grow the value of your investment in over a rolling 5 year period, after the deduction of all fees.

Investment Policies

The Fund seeks to achieve its investment objective by investing at least 80% of its Net Asset Value (“NAV”) in shares of global companies (including a maximum of 20% of its NAV in Emerging Markets).

The Investment Manager will select shares for the Fund that fit the River and Mercantile S-PVT (Sustainable Potential, Valuation and Timing) Investment Philosophy. This approach to investing looks for companies that are considered by the Investment Manager to have attractive Sustainable “Potential” (the ability to grow shareholder value through increases in profits and cash), “Valuation” (the price of the shares on the stock market is lower than the value the Investment Manager gives to the shares) and “Timing” (the extent to which analytical indicators that are supportive of investing at the time of analysis).

The Fund’s investment policy seeks to promote environmental and social characteristics primarily by fully integrating consideration of Sustainability Risks and opportunities under the S-PVT framework.

Investment can be direct or indirect (including common and preference shares and units combining common and preference shares, rights for shares, warrants, depositary receipts (securities issued by banks that represent company shares), investment trusts and collective investment schemes). Up to 20% of the Fund’s NAV may be invested in cash or other ancillary liquid assets (for example, cash, bank deposits and short-term debt instruments). A maximum of 10% of the Fund’s NAV may be invested in collective investment schemes (which can include those operated and/or managed by the Manager and Investment Manager). The Fund may also invest in or have exposure to debt or fixed income securities of various types and maturities issued by government

For more information about the investment policy and strategy of the Fund, please refer to the section entitled “Investment Objective” and “Investment Policies” of the Fund’s Supplement.

Risk and Reward Profile

This indicator above is based on an estimation of the potential volatility of the Fund’s returns and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk free investment.

Why is this Fund in category 5?

This Fund is in risk category 5 due to the range and frequency of price movements (i.e. the volatility) of the underlying investments referenced by the Fund which may not be a reliable indicator of the future risk profile of the share class. The Fund offers no capital guarantee or protection.

The Fund may be subject to risks which are not included in the calculation of the risk-reward indicator.

Key risk factors:

Emerging Markets Risk: The Fund may invest in emerging markets which may be more volatile than developed markets and be more susceptible to unforeseen events such as devaluations, political instability, etc.

Credit and Debt Security Risk: Credit risk occurs when the Fund may be adversely affected if the issuer of a debt instrument fails to meet its repayment obligations. By purchasing debt instruments, the Fund will assume this interest risk.

(including U.S. treasuries), state-owned enterprises, corporate entities and supranationals.

The Fund may use derivatives for the purposes of reducing risk or cost or for generating extra income or growth (known as “efficient portfolio management”). As an example, the Fund may use forward contracts for currency hedging with the intention of reducing risk arising from currency exposures in a cost-effective way.

The Fund is not focused on any one geographical region or industry sector.

The Fund is actively managed and not in reference to a benchmark meaning the Investment Manager uses its expertise to pick investments to achieve the Fund’s objectives.

The Fund promotes sustainable characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation (EU) 2019/2088.

The base currency of the Fund is GBP Sterling.

Dividend Policy

The Fund offers classes of shares that accumulate income or pay regular dividends. Income attributable to accumulating share classes will automatically be reinvested in the Fund and reflected in the NAV per share.

Dealing Frequency

You can buy and redeem Shares on each Business Day. Business Day means every calendar day except Saturday or a Sunday on which banks in Ireland and London are open for normal-business or such other day(s) as the Directors may determine and notify to Shareholders in advance.

Recommendation

The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Derivatives Risk: The Fund may invest in derivatives to hedge against risk and/or to increase return. There is no guarantee that the Fund’s use of derivatives for either purpose will be successful. Derivatives are subject to counterparty risk (including potential loss of instruments) and are highly sensitive to underlying price movements, interest rates and market volatility and therefore come with a greater risk.

Operational Risk (including safekeeping of assets): The Fund and its assets may experience material losses as a result of technology/system failures, programming errors, cybersecurity breaches, human error, policy breaches, or incorrect valuation of units.

Liquidity Risk: Securities in the Fund may be sold below their valuation due to insufficient liquidity in the market.

Foreign Exchange Risk: The Fund invests in international securities which are denominated in foreign currencies whose fluctuations may increase the Fund’s volatility and losses.

Sustainability Risk: Sustainability Risk means an environmental, social or governance event or condition that, if it occurs may have a material negative impact on the value of the investment. This could cause the Fund to avoid or sell stocks that otherwise meet the financial criteria in the Fund’s investment policy.

Attention is drawn to the risk that the value of the principal invested in the Fund may fluctuate.

For more information on risks, please see the sections entitled “Risk Factors” in the ICAV’s Prospectus and the Fund’s Supplement to the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:

Entry Charge	None
Exit charge	None

This is the maximum amount that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year:

Ongoing Charges	0.69%
-----------------	-------

Charges taken from the Fund under certain specific conditions:

Incentive fee	None
---------------	------

The Investment Manager has agreed to cap the ongoing charges for this class at 0.69%, for a period of five years from the date of authorisation of the Fund or sooner on 90 days' prior notice to Shareholders. The ongoing charge figure excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

The Investment Manager may, at its discretion, impose an anti-dilution levy should the Fund suffer a reduction in value due to transaction costs. The anti-dilution levy will serve to cover dealing costs and protect the value of the Fund.

Please refer to the "Fees and Expenses" section of the ICAV's Prospectus and the "Charges and Expenses" section of the Fund's Supplement for further detail on charges.
